

PRECISION WHERE IT MATTERS MOST

Built by *operators*. Deployed for *outcomes*.

In life sciences, theory doesn't accelerate timelines and generic consulting doesn't drive valuations. You need advisors who have actually built, funded, launched, and sold the exact assets you're working with today.

THE PRECISION ADVANTAGE

-  **Operators, Not Consultants**
C-suite executives who've driven billions in revenue and achieved scores of exits — not career consultants learning on your dime.
-  **Elite Fractional Engine**
100% fractional model deploys agile, customized teams of top-tier experts precisely when you need them.
-  **Global Scale, Boutique Agility**
The footprint of a global firm with none of the bureaucracy. Nimble, creative, and highly scalable.
-  **Entrepreneurial Urgency**
Startup hunger paired with institutional-grade operational and financial rigor.

WHAT WE DO

We deploy experienced operators across every critical function in life sciences
— from regulatory strategy through commercial launch to exit.

Commercial Strategy & Go-to-Market

Market assessment, competitive positioning, pricing strategy, product-market fit analysis, and full commercial launch roadmaps.

Investor Readiness & Capital Strategy

Pitch deck optimization, financial modeling, capitalization planning, data room preparation, and warm investor introductions.

Regulatory Strategy & Clinical

Regulatory pathway development, FDA/EMA agency support, and end-to-end clinical trial strategy and planning.

Reimbursement & Market Access

Payer landscape analysis, coding and coverage strategy, health economic modeling, and market access planning.

Commercial Operations & Infrastructure

Sales force design, US entity creation, compensation planning, CRM setup, and organizational development.

Exit Strategy & Strategic Partnerships

Acquirer identification, exit timing analysis, strategic engagement, term sheet review, and transaction support.

Fractional C-Suite Leadership

Part-time executive integration across CEO, CFO, CCO, COO, HR, Regulatory, and Reimbursement functions.

Grants, KOLs & Investor Services

Full-cycle grant strategy (NIH, NSF, DOD), advisory board development, due diligence, and portfolio support.

ADDITIONAL CAPABILITIES

SAB & KOL Strategy · Conference Planning · University & Government Services · Company Creation · IP Strategy · Mentoring · Shark Tank Facilitation · Board & CEO Placement · Distressed Asset Support

Let's build, scale, or exit.
